Topic:	Major Points Discussed:	Action Required:	Assigned to:	Due Date:
Welcome and Introductions	Alex Berg – New DFC Opioid Initiative Coordinator			
Narcan Trainings	Last scheduled Narcan training is set for Saturday, August 19 th at 10:00am. This training is held at St. Paul's Cathedral. We plan to continue Narcan trainings until we feel the need is not so great. Sheriff and City PD are now trained in Narcan administration and will have it on hand. Medical Examiner's office is also trained on administration. Kim is in communication with Captain Galske regarding Narcan training to inmates upon release and sending a kit with them. Finding that several inmates overdose after release.	Please help spread the word! Narcan Training Flyer	ALL	
Vivitrol Program Update	On the 10 th patient for the pilot program! There are good candidates out there that are missing the 'treatment' piece - - looking at new protocols to include those that are not on probation and parole.			

	Overall have seen a positive impact with this program in the community, hoping it becomes more widespread in a year or two.			
Jail Discharge Program	<p><i>This program generated much discussion – would like to continue discussion in detail at next meeting</i></p> <p>Currently, there is no plan when an inmate is discharged.</p> <p>Would like to mirror Stearn’s County Discharge program (They have had a dramatic drop in recidivism)</p> <p>Focusing on our community resources to come together without a ‘new pot’ of money. This would allow for the program to be continuous, rather than running on grants that are not always available.</p> <p>This program is coming along in the planning piece. It is close to piloting</p> <p><i>See Stearn’s County video for a detailed portrayal of what we would like our program to look like.</i></p>	Stearn’s County Jail Discharge Program		
Update from Todd Janquart	<p>Updated everyone on overdose statistics from earlier this year</p> <p>11 March</p> <p>13 April</p> <p>Out of the above 24, 16 of those were life-threatening (Narcan was administered)</p> <p>Since, the number of overdoses have gone way down.</p> <p>1 May</p> <p>0 June</p> <p>2 July</p>			

Goals & Objectives Review	Would like to keep the goals and objectives that we have set – we are making progress with each goal and would like to continue discussion of possible programs to implement, ex: needle exchange?			
Next Meeting	Thursday, September 14, 2017 2:45 PM City/County Government Center Room F
